Towards Remembrance, Integrity and Compassion*

We are here to do the Job. We will do it. We are doing it.
This is our Summit. The foundation we are building.
All the Stars that awoke on the Planet
Converge in one direction
Realizing Humanity's Potential

Remembering our Path
Caring for our Past, Future and Present
Ancestors, Heirs, Elders, Brothers and Sisters
Plants, Minerals, Animals, Spirits and Star Peoples
This is our Summit. The foundation we are building.

We came here on Earth to do the Job. We will do it. We are doing it.
One trajectory: SDGs 2030 - carbon neutrality 2050 - +1,5° 2100
Breathe, Sing, Listen, Play and Dance
Time is Now

To Act, to React and to Dive
Into your most remote Memory
The one you keep above your Head
And inside of you, in your Heart and in your Belly
Each one of your cells is asking
To make that Bridge

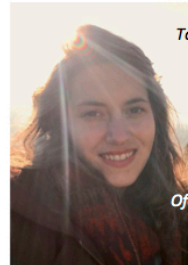

Altogether
We have the power to Move
To set a new Game
Recompose our surroundings
Gearing up

Towards harmony, integrity and understanding
We know the Way

With Joy, Friendship and Ecstasy
Peace, realization, embodying

Welcome Home
A new Story is being born
A new Health, a new Earth is at reach
Of which we can all become authors, as no-thing

Participants Briefing

We are building a vessel to catalyze a planetary transformation so as to realize our full potential as individuals, collectives and as a species, keeping global warming to 1,5° by 2100 and implementing the Sustainable Development Goals by 2030. We further anticipate a major shift in consciousness and capacity in 2632.

- Our basic values are authenticity, integrity, responsibility & enrichment – on a mutual basis and at a global level.
- This 2d edition of the Galactic Summit will happen mainly in English, while possible translation to and from French may happen cooperatively among participants.
- Participating engage you to do your best in providing the best conditions for everyone to grow openly, respectfully and harmoniously, including others and yourself.
- You will be able to register after having a personal contact or sharing your motivations on the form available in the “Get Involved” section of our website.
- We provide a Galactic Launching pad for preparing, embodying and enacting our next stage of evolution as a species. This transformational journey requires that you take responsibility for your part in it, including time, energy, skills and a financial contribution*.
- We advise you to participate to the entire week, or to some of the modules on a full-time basis : Plot/Process/Planet. You can also choose to participate to a day or a session only, to develop a specific field or topic of your interest. Participation to the Summit automatically includes access to the Opening and Celebration nights.
- Doors will physically open 20 minutes prior to beginning/10 minutes to online boarding: please be there so we can all start on time.
